Lets discuss tomorrow the details of unified command - what desks have bee set up? Ensuring all information is processed through incident command, and that there's coordination through HQ EOC.

**Subject:** Additional Points to Nitin's Summary of today's call

First we need to schedule a meeting sometime on Monday to discuss several of the following items:

Who and what is involved with regards to the policy review for the actions taken at the mine and the policy/tactics that are part of the newly identified assessment? Who from OSWER should get a seat at the table?

What do we need to do with regard to the headquarters EOC to support the multi region response? I spoke with Dave and the incident command and the area command are being moved to Durango. Dave will be in charge of the area command.

Becky can you see when we can have this conversation.

Thanks

Reggie Cheatham, Acting Director  
Office of Emergency Management
